Cape St. Mary's Facilitated Stakeholder Discussion

You are invited to a facilitated stakeholder discussion on the future of Cape St. Mary's.

Cape St. Mary's

- most accessible seabird colony and 4th largest gannetry in North America
- provincial ecological reserve rich with seabirds, land birds, whales, flora and fog
- national historic place with Heritage Lighthouse
- primary demand generator for the provincial tourism industry
- neighbour to Golden Bay, a natural seaside oasis with its essence captured in its name
- neighbour to Lears Cove, a resettled fishing and farming community
- icon in the 200-year cultural and maritime heritage of the Cape Shore

The Friends of Cape St. Mary's are in the process of developing a 3-year strategic plan. This plan will guide the organization's involvement as a lead stakeholder in the protection and promotion of Cape St. Mary's in partnership with the Ecological Reserve and other groups.

Your input is valued and will help us better conserve and share this important natural, cultural and tourism resource.

Branch Community Centre
Branch, NL
Friday, November 1, 2019
